

NISHA M

MERN STACK DEVELOPER

+917305579389 | nishamurugan75@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Aspiring MERN Stack Developer with hands-on experience in MongoDB, Express.js, React.js, and Node.js. Skilled in building responsive front-end interfaces, RESTful APIs, and full-stack web applications. Experienced in HTML, CSS, JavaScript, and Bootstrap through academic projects and internships. Passionate about crafting clean, scalable code and turning ideas into impactful digital solutions.

TECHNICAL SKILLS

Languages : JavaScript (ES6+) | Java | Python | SQL
Frontend : HTML5 | CSS3 | React.js | Context API | Bootstrap
Backend : Node.js | Express.js | REST API | JWT Authentication
Databases : MongoDB | MySQL
Tools & Platforms : Git | GitHub | VS Code | Postman | Vercel | Render

PROFESSIONAL EXPERIENCE

Web Development Intern – Insource, 2024

Developed and deployed responsive web applications using HTML, CSS, JavaScript, and Bootstrap.
Optimized UI components and page performance, enhancing overall website usability and user experience.

Java Intern - Cognifyz Technologies, 2025

Built and tested Java applications applying OOP principles, ensuring modular and maintainable code structure.
Worked with MySQL database integration and application testing.

PROJECT

Zync – Real-Time Chat Application

[GitHub](#) | [Live Demo](#)

React 19 | Vite | Bootstrap 5 | Context API | React Router | LocalStorage

- Built a responsive real-time messaging UI with dynamic chat windows, live user status, and instant search filtering.
- Implemented global state management using Context API and simulated async API behavior with localStorage-based data persistence.

SpendWise – Full-Stack Expense Tracker

[GitHub](#) | [Live Demo](#)

React | Express.js | MongoDB | Vercel | Render

- Developed a full-stack expense tracker with complete CRUD operations, custom SVG charts, and editable budget limits.
- Deployed frontend on Vercel and backend on Render, implementing dark/light theming for improved UX.

ApartEase – Society Management Platform

[GitHub](#) | [Live Demo](#)

MongoDB | Express.js | React.js | Node.js | JWT

- Built a role-based society management platform with complaint tracking, visitor management, and bill payment modules.
- Designed secure RESTful APIs with JWT authentication and protected routing for role-based access control.

EDUCATION

B.E-CSE	P.A. College of Engineering and Technology	80%	2022-2026
HSC	Our Lady of Lourdes Matriculation	79%	2020-2022
SSLC	Higher secondary School	90%	2019-2020

CERTIFICATIONS

MERN Stack Development – Vinsup Skill Academy
Frontend Web Development (HTML, CSS, JavaScript) – Infosys Springboard
Fundamentals of Java Programming – Coursera
Programming in Python – NPTEL
MySQL Database – Oracle

ACHIEVEMENTS

Presented a Registration Page project at Project Expo, P.A. College of Engineering and Technology – 2023
Showcased "Fitness Tracker App" project at Techgenesis, P.A. College of Engineering and Technology – 2025
Completed a Web Development Workshop conducted by Rathinam Group of Institutions – 2025

CORE COMPETENCIES

Team Collaboration | Problem Solving | Conflict Resolution | Database Management | Time Management
